In October 1939, Albert Einstein warns President Franklin D. Roosevelt that Nazi Germany is actively pursuing an atomic bomb and urges him to make sure that the United States develops the bomb first. Roosevelt heeds the warning and launches the “Manhattan Project” in June 1942.

Connecting Research & Results As a master teacher, Santrock connects students to current research and real world application. His integrated, personalized learning program gives students the insight they need to study smarter and improve performance. Connect with Life-Span Development and connect with success! Informed and driven by research. At McGraw-Hill Education, we have spent thousands of hours with you and your students, working to understand the key needs and concerns you face in Human Development courses. The most common topics raised include managing the vast amount of content inherent to this course and ensuring the dependability of the assigned material—is it current and accurate? The result of this research is John Santrock’s Life-Span Development. Life-Span Development ensures students complete and understand the assigned material in a number of ways: Santrock’s hallmark Learning Goals pedagogy provides a comprehensive roadmap to the text material, clearly pointing out the core concepts fundamental to students’ learning and performance. Our LearnSmart Advantage adaptive study tools increase students’ efficiency in studying by identifying what they know, and more importantly what they don’t know, providing immediate remediation for the areas in which they are struggling. At the same time, instructors have access to powerful visual reports allowing them to quickly see where students’ strengths and weaknesses lie. Connect Lifespan takes your instruction and your students’ learning experience to the next level without requiring hours of setup whether you are teaching face-to-face, online, or in a hybrid setting. The 15th edition continues with the connections theme to help students better understand the concepts among the different aspects of human development. This recurring theme of connections—Developmental Connections, Topical Connections, Connecting Development to Life, Connecting with Careers, and Connections through Research—ties together concepts from across chapters to reinforce the learning process and connects the material to students’ everyday lives and future aspirations. Our Milestones of Development video series helps bring the course material to life, allowing students to witness development as it unfolds. And of course, all of the text material is informed by Life-Span Development’s unique board of expert consultants—a who’s who of developmental psychology—who make sure the material is as accurate and up-to-date as possible.

"This is a timely must-read for managers and anyone who has ever had to deal with a difficult coworker; it addresses a ubiquitous problem in a proactive, positive manner that should get the desired results." - Publishers Weekly

Everyone has a "schmuck" in their office—a difficult, disruptive person who upsets the workplace, confuses coworkers, and causes concern. It's hard to understand why schmucks act the way they do, but one thing is certain—they seem to come in all shapes and sizes.

- Narcissus—the condescending attention-seeker who carelessly steps on everyone's toes
- The Flytrap—the bringer of chaos whose emotional instability causes an office madhouse
- The Bean Counter—the orderly perfectionist who never gives up control, even when it's full-steam-ahead to disaster
- The Robot—the unreadable stone wall who just can't connect

Sound like anyone you know? These are just a few of the more prominent types of difficult people at work. In *The Schmuck in My Office*, Dr. Jody Foster explains the entire spectrum of people we may think of as schmucks, how they can decrease productivity, destroy teams, and generally make everyone else unhappy. Along with nailing down the various types, she looks at personality traits and explains how dysfunctional interactions among coworkers can lead to workplace fiascos. She helps readers understand schmucks as people, figure out how to work with them, and ultimately solve workplace problems. She also makes readers consider the most difficult thing of all: despite where your finger may be pointing, sometimes you are the "schmuck"! Let Dr. Foster teach you how to make your workplace a happier and more productive one.

**SAP? MM Handbook**

**Looseleaf for LifeSpan Development**

This volume of essays examines the ways in which magical practices are found in different aspects of contemporary capitalist societies. From contract law to science, by way of finance, business, marketing, advertising, cultural production, and the political economy in general, each chapter argues that the kind of magic studied by anthropologists in less developed societies—shamanism, sorcery, enchantment, the occult—is not only alive and well, but flourishing in the midst of so-called 'modernity'. Modern day magicians range from fashion designers and architects to Donald Trump and George Soros. Magical rites take place in the form of political summits, the transformation of products into brands through advertising campaigns, and the biannual fashion collections shown in New York, London, Milan and Paris. Magical language, in the form of magical spells, is used by everyone, from media to marketers and all others devoted to the art of 'spin'. While magic may appear to be opposed to systems of rational economic thought, Moeran and Malefyt highlight the ways it may in fact be an accomplice to it.

Logistics with SAP S/4HANA

By definition, winning means that you competed and you came out ahead. Human nature requires us to compete in order to survive. Therefore, winning and survival have the element of success in common. To ascend to a winning position, you need a goal, a desire to achieve it, and the qualities of discipline, perseverance and action to attain it. Having your goal and setting yourself up to achieve your goal is the first step in the process. You adjust your mindset and begin to plan diligently. Goals may be as different as DNA, but methodologies have much in common. Furthermore, your plans and expectations will need adjustments as you go along. That is why the knowledge shared by the CelebrityExperts(r) in this book will be of importance to you. The advice and suggestions of these CelebrityExperts(r) are based on their experiences - both their accomplishments and their shipwrecks. The knowledge they share will allow you to make plans that can propel you in the right direction. That is the function of a mentor - to guide you where you are going and to advise what to avoid. If you wish to develop The Winning Way to your goals, read on You will never win if you never begin. Helen Row
